The skinny-bootcut compromise

- **Happy medium:** If you're not quite ready to go all the way, a straight leg is a great alternative.
- **Figure flattering:** "A straight leg gets across a slimmer look without making many body types look top-heavy," says

Lady Reiss, owner of the Blues Jean Bar in San Francisco.

- **Work appropriate:** If cigarette-slim jeans feel too trendy for the office, but you're over bootcuts, these are stylish and professional.

3. SUPER SKINNY

Best worn skintight and with an attitude, this hip-hugging style isn't for the faint of heart

Ankle width
5-5 1/2"

Risk management

- **Go dark:** "Darker washes are always going to make your legs look slimmer. And the look is newer," says Andrews.
- **On top:** Opt for something floaty with a bit of volume to contrast the bottom proportion, or something long and body-skimming to enhance it.
- **Beware of muffin top.** If you're not boyish, consider yourself warned.
